

JOE BIDEN TO VISIT UKRAINE

Vice President Joe Biden will visit Ukraine this month to meet with government and citizen leaders. The White House says Biden will travel to the capital of Kiev on April 22 for a visit that will focus on the international community's efforts to help stabilize and strengthen Ukraine's economy.

The White House said Saturday that Biden also will assist Ukraine in its efforts aimed at constitutional reform, decentralization, anti-corruption and free and fair presidential elections set for May 25. President Barack Obama will be on a trip to Asia at the same time Biden visits Ukraine.
